THE SHELLPOT ELECTION CASES Last Friday two or three accused officers who held the Republican Primary Election in the Third Election District of Brandywine Hundred, commonly known as the Shellpot District, were convicted and one was acquitted. It will be remembered that at this election only 15 votes were returned for Isaac C. As there were only 15 votes in the box for Mr. Elliott, the Committee could do nothing. The Attorney-General presented the men to the Court of General Sessions under the provision of the Constitution which gives that Court the power to try such offenses without the intervention of a grand or petit jury. The trial lasted nearly the whole week and 64 men testified that they had voted for Mr. Elliott. The defense could and did enter only a simple denial of the crime, and the Court unanimously found Matlack and Watson guilty of foilimete word the process of the content are both in a hospital in Baltimore City, where they are being treated. Drane, Michael A. Carroll, Hugh Wallace, Michael T. Con-way, Albert Abberger, Thomas F. Martin and Edward A. Brand were indicted by the Grand Jury for the crime of altering a certificate of election. The last named, Brand, was tried and convicted, and the others thereupon pleaded guilty. The facts, as brought out at the trial of Brand, were that these men and others who escaped altered the certificates of election by taking from the num-ber of votes cast for William R. Flinn, the Republican candidate for Sheriff, fifty votes each and adding the same number to those cast for James B. Toman, the Democratic candidate. The intent was, of course, to count out Flinn, and count in Toman. As a matter of fact, one of the disof this hundred, but the Inspec-tor who did the altering was one of the lucky ones who escaped. The Court sentenced Brand and each of the others to pay a fine of \$100. The difference between the cases last mentioned and the Shellpot case was that in the former the actual will of the people as expressed at a general election was attempted to be thwarted, while in the latter, the candidate at the primary was de-frauded of a nomination, which institute at Elkton this week. was not equivalent to an election, as the District is now represented ing a few days in Wilmington.

If these men had been let go free, no one knows what would have been attempted next, not in that district particularly, but anywhere in the county or state. We do not know if any one or more persons were behind these officers in their crime, but if so, he or they should be punished even in their crime, but if so, he or they should be punished even more severely than they. The briber, or the promoter of evil, is a more dangerous man than the one who takes the bribe or commits the crime at the wish of another. In the one case it is deliberate crime; in the other, often, weakness.

## PENINSULA PARAGRAPHS

The fourth convention of Appoquinimink and Blackbird Hundreds Sunday School Association was held in Salem M. P. Church near Price's Corner last Thursday. A splendid program was rendered and many prominent Sunday School workers were present. After a song praise service, the Rev. Frank Cain, pastor of the church, made the address of welcome, in which he outlined the history of the Sunday School from the very first one founded by Robert Ricks in London in 1786 on down to the excellence and completeness of the modern Sunday School and concluded by giving the workers a hearty welcome.

The new Magistrate is an active Republican. While of Swedish an active Republican. While of Swedish ancestry Mr. Broman is able to speak the German language finently. Clayton had a most miraculous escape from a disastrous fire Friday night when the lumber and milling establishment of Warner & Blair burned down, entailing a loss of between \$5000 and \$9000, and the Maguire residence tenanted by John Simpler was consumed, entailing a loss on house and contents of nearly \$1000.

question on the lesson that any one asks him, and that he should not enter a Sunday School, until the lesson is thoroughly prepared by him. Rev. Joel Giffillan, of Newark, also spoke on this subject.

Miss Maggie S. Wilson, of Seaford, who is State Secretary, gave her views on Sunday School management. She had a series of questions; any of which she was willing to answer for any one who asked. When asked to name some of the most essential qualifications of a successful supintendent, Miss Wilson mentioned "gumption" as a very necessary article to be possessed.

Prof. H. S. Goldey, of Wilmington, gave a talk on the I. B. R. A. (International Bibbe Reading Association). It costs but five cents a year to join this Association, and the necessary promse is that a member will read a certain number of bible verses each day. If a Sunday School has ten members in the I. B. R. A., that Sunday School is entitled to a branch secretary.

#### FOR YOUR PROFIT AND PLEASURE

Are you drifting along in the old rut and not availing yourself of the economic, labor-saving and pleasure producing devices of the day, standing at the head of which is the telephone?

If you are in business, could not your present force do more work by using the great time-saver, the telephone? Wouldn't your bank account be increased if you saved the most valuable of all commodities—time—by the use of the telephone? Would not your home be more convenient and your family safer and happier if you had a telephone in your home?

These are not idle questions, but ones that appeal to your interests, to the welfare and happiness of your family. Think them over and then learn prices on resident telephones. You will find them so low as to make your failure to install one in your home almost a crime against your family and yourself.

If you wish to learn prices address the Diamond State Telephone Co., Middletown, Del. town, Del.
